EDUCATION

University of Belgrade, Serbia - Faculty of Organizational Sciences

Bachelor of Science in Information Systems and Technologies — Oct 2021 - Oct 2025

Master of Science in Software Engineering and Artificial Intelligence — (expected) Nov 2025 - Oct 2026

PROJECTS

WeekMap - C# | ASP.NET Core | SQL Server | Entity | xUnit | React | Python | Selenium | PowerShell

- A full-stack web app for organizing time through weekly routine tables
- Built with layered architecture (controllers, services, repositories, DTO mapping)
- Implemented backend and frontend testing and with an automated execution script

Hotel Reservation System - C# | SQL Server | WinForms | SqlClient

- A client-server desktop forms app for managing hotels, reviews, guests, rooms and reservations
- Designed layered architecture (WinForms UI, controllers, system operations, database broker, server)
- Implemented socket-based communication with multithreading and JSON serialization

Hollow Knight Arena - C# | Unity

- An action game inspired by Hollow Knight. The player has 9 movement abilities, 3 spells, 24 items, 2 game modes, 3 arenas and fights a boss with 10 attacks
- Implemented an input buffer system to improve responsiveness and overall user experience

JobSwap - React Native | Firebase

- A mobile app for Android & iOS that helps users meet each other and message about swapping local jobs based on their location and matching settings

EXPERIENCE

Data Science Internship - Republic Geodetic Authority (RGZ) — Apr 2024 - May 2024

- Assisted in improving a statistical model for estimating and predicting real estate values in Serbia for the quarter using SPSS. Reduced the model's MSE by 4%

Mentoring — Aug 2024 - Present

- Designed a paid study course for the subject "Programming languages" at the Faculty of Organizational Sciences, helping 30+ students prepare for exams.

SKILLS

Languages: C# | Python | JavaScript | HTML | CSS

Frameworks & libraries: .NET | ASP.NET Core | Entity | Unity | xUnit | React | Selenium

Databases: SQL Server | MySQL | T-SQL

Other developer tools: Git | GitHub | SQL Server Management Studio (SSMS) | Postman | Jira

Spoken languages: English (fluent) | Serbian (native) | Russian (basic)
